AITI And Rennovo Solutions Sign ICT Survey Agreement

FRIDAY, 15 FEBRUARY 2013 08:12 JAMES KON HITS: 25

0 Comments and 0 Reactions

Bandar Seri Begawan - Brunei Darussalam will embark on its second household ICT survey project following the signing of consultancy services to perform the survey between the Authority for Info-communications Technology Industry of Brunei Darussalam (AITI) and Rennovo Solutions Sdn Bhd.

This is the second survey to be conducted after the first one, which was done in 2010.

On behalf of AITI, Awg Hj Yahkup bin Hj Menudin, Chief Executive of AITI inked on the dotted line together with Awg Hj Sapawi bin Bolhassan, Chairman of Rennovo Solutions Sdn Bhd. The ceremony was held at the AITI office in Anggerek Desa.

According to a statement from AITI, The objective of the project is to perform a survey to gather a set of ICT related data within the households of Brunei Darussalam.

This survey shall provide data on the basic indicators of the ICT situation in households, its trends and usage.

The survey shall facilitate an assessment and monitoring of the extent to which Bruneian households have access to ICT and its related facilities.

The first phase of the project will involve the design of questionnaire that are ICT related according to the International Telecommunity Union (ITU) standards. The survey will be carried out in the next phase for the duration of two weeks by means of self-enumerated questionnaire which will be in both English and Malay.

A group of enumerators representing Rennovo Solutions Sdn Bhd will be conducting the survey at households selected randomly.

Upon completion of this project, AITI will issue a publication on ICT indicators that would serve as the single resource to the stakeholders of the ICT industry, policy makers and researchers.

AITI and other relevant agencies will be able to identify ICT gaps and develop plans to bridge these gaps within the information society.
